Installs in Seconds

The days of time consuming installation of decorative hardware are a thing of the past!

Cre8tive Hardware magnetic decorative hardware is manufactured from durable ABS plastic. The silicone capped, ultra-strong neodymium magnets provide superior holding strength and surface protection.

Unlike stamped steel, ABS plastic will not rust, chip, or bleed. Avoid the headache of costly drilling errors! No tools required, just place the decorative handles and hinges on the door.

No Drilling Needed
Easy installation
Avoid costly drilling errors

Noncorrosive
No flaking
Rust resistant
Color fading & weather tested

No Streaking
No paint bleed
Resistance to discoloration

Neodymium
"Rare Earth"
magnets
retain 99% of
strength over
10 years.
